

Lesson 6

Feelings: JEALOUSY

Activity 2

WHO IS RESPONSIBLE?

A guy has been coming on to your girlfriend regularly at school. She's at a party and you're not...and she makes out with this guy. You hear about it on Facebook before school on Monday. You confront your girlfriend, and she is very very sorry and says it didn't mean anything. She says she doesn't know why she did it and that she doesn't even really like him.

How would you feel in this situation? Whom do you blame most? Assign a percentage of blame to each of the people in the situations below.

Situation	Him	Her	Yourself
In the situation described above?			
If she had been drinking?			
If this other guy was your best friend?			
If he was your girlfriend's ex-boyfriend?			
If this was a same-sex couple?			
If you had just started going out a few weeks ago?			
If you had been dating for four years?			

(Important: Teachers need to have students read through these hypothetical situations and have the students let them know if any of them should not be discussed in class due to sensitive issues.)
